Free Tuition Centres

Free Tuition Centre is one of the flagship projects of the Foundation that works to improve the Rural Students in their studies, attitude and discipline. Students studying in different schools come to the centre and study their school lessons. Two trained teachers help the students in their studies and monitor their progress. These centres run in the evenings from 5 p.m. to 7 p.m.

Pandithamedu, Kancheepuram

A team in the Foundation's Head office monitors and guides the teachers by taking every day attendance and enquiring about the progress. The students study for about 50 hours a month in a good environment under the supervision of the

teachers. This results in

definite progress of the students. There is a separate progress card for each and every student that is maintained by the centre's teachers and monitored by the Foundation's Head Office.
